### LADIES' AUXILIARY, A. O. H.

The Hibernian hall on Monday evening the Ladies' auxiliary, A. O. H., met but had only a small attendance, so that the regular business was postponed. The next important date for the auxiliary will be on the first Sunday afternoon in May, when a special meeting will be held for the initiation of a class of about a dozen candidates. Members of the auxiliary in New London and Westerly are expected to attend. The auxiliary is also to meet on the 1st of May at 8 o'clock in the evening. ### UNITED WORKMEN.

The grand lodge finance committee will meet next Wednesday afternoon at the grand lodge office, New Haven, and the grand lodge executive committee will meet there in the evening.

The last rites in the case of our beloved brother, Capt. Charles L. Chapman, of the New Haven fire department—rites which were impressive and because no vestige of the remains were brought to light, though the body was untroubled and hope had to be abandoned—were held last Thursday, and by courtesy of the Yale authorities held at Yale's grand Woolsey hall, the services being a combined public memorial service for Captain Chapman and his two comrades who together perished in the terrible fire at New Haven's county jail. It was a most solemn occasion, one long to be remembered by the vast throng present.

John A. Morgan, a member of Thames lodge, No. 13, of Groton, died April 20th, aged 48 years, and had been a member of the order ten years. He had held the office of assistant town clerk of Poquonock Bridge for many years.

### ODD FELLOWS.

Shetucket lodge, No. 27, at its meeting on Tuesday evening in Odd Fellows hall voted to send Past Grand John McFattie and John J. At its next meeting Shetucket lodge will have work in the third degree.

Uncas lodge, No. 11, also works the third degree at its meeting on Monday evening and has invited Reliance lodge of Jewett City to attend. The degree will be followed by a banquet.

Thursday evening Canton Grove, No. 3, held its regular meeting, having only routine business and giving way to a friendly entertainment for a rehearsal by the encampment of the second degree in preparation for the work next Thursday evening, when the encampment from New London and Mystic are to be present by invitation.

Perkins corps, No. 18, of New London, which has initiated 24.

From 3 to 8 o'clock at the Buckingham Memorial on Friday afternoon the corps held a food sale under the management of the executive committee and assistants. It had many patrons and was a pleasing success.

### ORDER OF PROTECTION.

Thames lodge, No. 128, meeting in regular course last Tuesday evening in Foresters' hall, Warden Henry A. Condon in the chair, had the reports of the grand lodge meeting from its three delegates, Miss Margaret Rohan, Mrs. F. L. Parrell and William Shea, and also from Supreme Representative M. J. Foley. Deputy William Kingston from New London was a visitor. Thames lodge voted for various reasons to hold its May whist on the night of the month instead of the third Tuesday, as had previously been arranged.

Norwich lodge, No. 248, has plans for a chowder at its meeting Monday night at the Buckingham Memorial, to which members are privileged to invite their men friends of other lodges but no special invitations have been issued.

There was a good attendance at the meeting of Sedgwick post, No. 1, G. A. R., in Buckingham Memorial hall, Friday evening at 8 o'clock. Commander Hovey presiding. The post will have a campfire next Friday evening at the Memorial, at which both the Coast Artillery companies of this city will be present as guests. Three new members of the Citizens' corps were voted in, Grosvenor, Dr. H. M. Pollock and Dr. D. J. Shahan.

Members of the Sons of Veterans' camp of New London were present and spoke regarding a war play which it is possible they will put on for the post. No action was taken in regard to the matter, but will be very soon.

The most accepted invitation of Rev. Joseph F. Cobb of the Universalist church to attend the memorial service at 10.30 o'clock Sunday morning, May 29, and in the evening the invitation of Dr. M. S. Burns; treasurer, Mrs. Annie Murphy.

It was decided to hold the next meeting on May 9th, at the president's home, and it is probable that there will be a number of meetings held this spring at the homes of the members, and the society in a satisfactory condition as to membership and finances.

### ELKS.

In the list of appointments at Norwich lodge, No. 430, at the meeting on Thursday evening, Charles W. Tubbs was reappointed organizer, a place he has held for years, and William F. Young was made inner guard instead of W. B. Young, Jr., as previously reported.

### MUCH MORE FAVORABLE.

James G. Lathrop Had a Shock at Madison, Wis., But Shows Much Improvement.

James G. Lathrop, a resident of Windham, who was for many years an athletic instructor at Harvard university, has been held for years, and William F. Young was made inner guard instead of W. B. Young, Jr., as previously reported.

Last week Mrs. Lathrop, who was a Miss Larrabee of Windham, a cousin of Mrs. Lathrop's, was sent to go to Wisconsin, as Mr. Lathrop had suffered a shock. Letters received from Mrs. Lathrop state that, while Mr. Lathrop's condition is serious, the doctor has hopes of his recovery. Mr. Lathrop is a brother of the cashier of the Windham National bank in Willimantic and is well known in athletic circles throughout New England.

Friday information received here stated that his condition is much more favorable.

### A New Edible Fruit.

Mr. Burbank has his rival at home.

Hugo Lillenthal, a horticulturist at Berkeley, Cal., has been developing by cross-grafting an edible fruit from the climbing rose of the region. It is as yet but a seedling but it has a pleasant apple flavor, and is good cooked or natural. Why not? The peach, the apple, and the apricot have all been developed from the rose or the almond stock, or both together, and by bud-grafting and grafting whose record never was made. How else have the fruits and grains of the world been produced? The American Indian grew the maize from some original grasses whose fruit suggests a similar development. The wild rice, from

which the rice of food importance was perhaps grown, is of our rivers and feeds the wild geese and wild ducks—where there are any. Mr. Burbank's wizardry is but a highly intelligent following of encouraging indications from nature itself. What might be done with the jaws of the thorn and the hips of the rose remain to be found out by some patient experimenter.—Springfield Republican.
